1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a method of measuring capacitor mismatch in an analog to digital converter that includes a plurality of stages, a code generator, a plurality og input capacitors, an amplifier, a feedback capacitor; the converter functions to sample a first voltage on each of a plurality of input capacitors in a first phase, the first voltage cause at least some of the plurality of stages to generate a sub-code equaling zero; the converter functions to connect one the input capacitors to a second voltage and the feedback capacitor across the amplifier in a second phase; the capacitor mismatch is determined based on the signal generated by the second phase.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peguy JeanPierre whose telephone number is (571) 272-1803. The examiner fax phone number is (571) 273-1803.
